DESIGNING FOR THE FUTURE

Designing for the future.

Sustainable Design Initiative

Permaloc Corporation has dedicated itself to creating products that are environmentally friendly and beneficial to sustainable design. We strive to reduce the use of non-renewable resources, minimize environmental impact, and relate people with the natural environment through our manufactured products and our corporate culture.

Our LEED approved products utilize post-consumer recycled material, and each product is 100% recyclable. Each product is designed and engineered to last the lifetime of a project, adding to the sustainable benefits.

At Permaloc, we are committed to environmental leadership in all of our business activities, from our operations to the design of our products. Permaloc has been recognized for our environmental policies by many leading sustainable design organizations.
